

# Food Safety Training

Retailers are embracing Global Food Safety Initiative (GFSI) recognized food safety standards as a way to increase the confidence in the safety of their supply base and reduce duplication in audit efforts.

- ▲ Food safety training is available at strategic locations throughout the country as well as on customer premises
- ▲ EcoSure consultants can assist with the implementation, validation and verification of programs

## EcoSure's Training Programs

GFSI Training	<ul style="list-style-type: none"><li>▲ GFSI benchmark requirements and drivers</li><li>▲ Basic requirements for the internationally recognized food safety management systems</li></ul>
